

Please read James 2:18 and James 2:26.

You will notice that the topic surrounds faith and works. For further understanding of this topic you may wish to read the whole chapter, book or more. This I will leave with you.

Now that the new year of service has begun in our church, I would like you to evaluate your own service/participation last year specifically looking at the areas of your own faith and your works. If possible could you provide two answers, one where you thought your experience was successful and the other where you feel you had room to improve.

The purpose of this self evaluation is for you to know our Lord's word (read the Bible) and be able to relate it to your world and your service to our Church, children, community and beyond.

There are no right or wrong answers and there is no required length for answers.

Please write your two answers in below (2 CPD points for 1 answer and 5 CPD points for 2 answers). You have a week from this Sunday to complete this work- due: 5th March. Thank you and God bless you all.
